EDUCATION

Simon Fraser University

Burnaby, BC

Bachelor of Science in Computer Science

Expected graduation: June 2027

- **Relevant coursework:** UX/UI Design, Data Structures and Programming, Intro to Business Fundamentals
- **Leadership:** WICS Technical Events Coordinator & Mentor (2024–25), Blueprint AI Engineer (2024), Shockwave Dragonboat Events Executive (2025–26), Atelier & Treehouse Host, Socratica

WORK EXPERIENCE

Product Designer

Oct 2025 – Aug 2026

Simple Ventures

Remote

- Led **product discovery and market research** across international markets, analyzing emerging business models, competitors, and customer needs to identify opportunities for new products in Canada.
- Led the **end-to-end discovery and product design** of **Aurora Pet Co.**, a vet-backed subscription pharmacy for affordable chronic-condition pet medications, while exploring the opportunity space for **Disability OS** through market research, user needs analysis, and early product strategy.

Mission Science Apprentice – Terrestrial Snow Mass Mission (TSMM)

May 2025 – Aug 2025

Canadian Space Agency

Longueuil, QC

- Transformed a fragmented network of Canadian Sun–Earth systems contacts and research into a **structured stakeholder database and mission intelligence resource**, improving the team’s ability to identify collaborators, map expertise, and inform the **TSMM roadmap**.
- Developed and project-managed the **simulation platform workflow and TIF image-processing pipeline**, coordinating data processing and operations to generate Canada-wide satellite mosaics and support collaboration with **CSA, ESA, NASA, and Environment & Climate Change Canada** researchers.

Product Designer

May 2025 – Aug 2025

SFU - Special Research Projects (Cradle) with Prof. Brian Fraser

Burnaby, BC

- Led **contextual interviews and workflow research** with healthcare practitioners, using **Figma and FigJam** to synthesize findings into journey maps, design principles, information architecture, and optimized task flows.
- Designed and iterated **wireframes, interactive prototypes, and high-fidelity UI** in Figma, translating complex clinical workflows into accessible interfaces while collaborating with frontend developers on implementation constraints and design-system consistency.

PROJECTS

🔗 AuroraPetCo. | *Product Design / E-commerce*

Oct 2025

- Designed a **vet-backed subscription pet pharmacy** focused on improving affordability and access to chronic-condition medications for pet owners across Canada.
- Developed the **end-to-end product experience**, translating a complex healthcare and commerce problem into clear information architecture, user flows, and a high-fidelity web experience.

🔗 Spruce | *UBC UXathon - Best UI Design*

Jan 2026

- Designed a platform helping **low-income families in Vancouver discover free and low-cost third-space activities**, addressing barriers to accessible community experiences.
- Translated a broad social-impact problem into a **focused discovery experience**, designing user flows and interfaces that make local activities easier to find and evaluate.

🔗 Starmap | *Product Design / Personal CRM*

Mar 2026

- Designed a **personal relationship management tool** that maps people, connections, and social context over time to help users maintain meaningful relationships.
- Explored **relationship visualization, information architecture, and interaction design** to turn complex social networks into an intuitive, human-centered experience.

SKILLS

Design Tools: Figma, FigJam, Framer, Webflow, Adobe Photoshop, Adobe Illustrator, Adobe Premiere, Blender

Programming Languages: Python, TypeScript, JavaScript, C/C++, Java, SQL, R, MATLAB, HTML/CSS

Frameworks & Libraries: React, Vue.js, Node.js, Flask, Pandas, NumPy, Matplotlib, TensorFlow, scikit-learn, Spark

Product & Engineering: Git, GitHub, REST APIs, Docker, JIRA, Splunk SPL

Personal Interests: Painting, Writing, Reading, Music, beach volleyball, swimming, hiking, snowboarding
